Re: RRG/Clayton Chemical Co. Superfund Site UAO No. V-Q-08-C-893

Dear Mr. Turner:

As follow-up to our teleconference of April 7, 2008 2:30 EST and your subsequent email sent April 8, 2008, we have been advised by our attorneys that our sales agreement is protected under a confidentiality agreement by all parties and are not able to provide the entire document previously discussed with you. We again urge you to take a look at the relationship between Coleman Chemical and Oil (as the sited PRP in this case) and Coleman Chemical, Inc. We are not privy to the details of that purchase and/or company name and/or stock issues therein.

We would like to specifically direct your attention to section 23, page 37, subsection (v). We feel that this section in particular, indemnifies Interstate Chemical Company, Inc. from the liability of this superfund site. Additionally, and more importantly, I.C.C. has no linkage to the PRP cited...Coleman Chemical and Oil. At no time did we deal with a company named Coleman Chemical and Oil Company.

I certify as an officer of Interstate Chemical Company, Inc. that these statements are true and accurate to the best of my knowledge.

Sincerely,

Michael Puntureri
